READY TO TAKE THE NEXT STEP IN YOUR RESEARCH CAREER?

CHECK OUT THE «PROFESSIONAL SKILLS FOR RESEARCH LEADERS» PROGRAMME!

Looking to collaborate more widely? Eager to know how to keep your research team on track and help team members to progress? Wanting to feel confident in your ability to write compelling applications to secure the funding you need for your research? Ready to build up a strong publication record which will establish you as a leader in your field?

«PSRL courses highlight the importance of reflecting on your own career and provide essential tools to help making good decisions at the early stages of your scientific independence. I found this programme very useful when developing your research leadership. It gives you essential advice and tricks to ensure successful management of your research team, collaborations and research projects. It is also a great opportunity to meet peer scientists who share similar challenges, as well as more established personalities with valuable experience. I definitely encourage young independent researchers at ULiege to enrol in this program.»

Pierre Close, Ph.D.
FNRS and WELBIO Group leader
Head of Lab of Cancer Signaling, GIGA-Institute, ULiege

«Research in management shows that leadership can be learned. Though, research leadership programmes are rarely organized and it has been for many researchers a lonely journey, finally learned through experience. All researchers face the challenge of building a strong research network, the challenge of setting up and managing a research team. The program PSRL is a unique opportunity to benefit from the experience of other researchers on how to develop a research network, on the importance of being mentored, on how to manage and set up a research team as well as on how to communicate about our research outputs. This is in my opinion more than a course programme as it constitutes a real think tank about how to professionally carry out his/her career in research.»

Marie Lambert, Ph.D.
Vice Dean for Research and Associate Professor
HEC Liège, ULiège
Designed to help researchers to enhance their leadership, management and engagement, the «Professional Skills for Research Leaders» programme enables you to identify a range of strategies and opportunities to establish yourself as a research leader. Along with other researchers, you will explore thematics from writing compelling and competitive funding applications to communication and managing relationships with team members and collaborators.

The use of both high-quality interactive activities and online courses provides a rich and engaging learning experience.

**THE PROGRAMME FEATURES :**

- 5 online courses
  - Developing and consolidating your research career
  - Funding your research
  - Managing a research team
  - Research collaboration
  - Communicating your research
- Personal portfolio
- 6 Workshops and networking
  - Case studies
  - Interactive activities
  - Exchange of good practices with peers and experts

**TARGET AUDIENCE**

- Independent researchers (R2-R3 - EU research profiles)
- Maximum: 12 participants (min. 6)

**ORGANIZATION AND SCHEDULE**

- December to May
- A 2h workshop/month
