The University of Liège offers a vacancy for a Professor/Associate Professor position in Landscape Urbanism.

**Start date:** 01/09/2020  
**Offer reference:** FA2020-1

Position description:

A full-time, indivisible position in the field of Landscape Urbanism, for a maximum of 250 teaching hours, including seminars and practical work, to which must be added research activities in the field and services to the Community.

Considering architecture, urban planning and landscape as a disciplinary continuum, the Faculty of Architecture positions itself within the discipline of architecture by focusing in particular on the quality of urban space. It wishes to promote a position in the field of Landscape Urbanism.

This field of research and teaching is at the crossroads between the theories, the history of urban planning and landscape as the basis for the evolution of the thoughts and cultures of the city and the territory, and that of the architectural and urban project in its various dimensions. It is based on the production of knowledge in interaction with public action, through collaborative and partnership practices, and more specifically the implementation of teaching and research workshop dynamics on an international scale. In terms of research, it is intended to contribute to the development of theories in the field of architecture and urban planning projects. The approach makes it possible to contribute to the evolution and/or adaptation of urban and landscape project design methodologies.

**Teaching activities:**

List of courses (not exhaustive) that could be given to the selected candidate:

- Architecture project workshop - co-titled (20 ECTS), (256h other), Master, Bloc 1, All year (TA)
- Architecture project workshop - in co-titled (20 ECTS), (256 others), Master, Bloc 2, All year (TA)
- City and Landscape (2 ECTS) - in co-titled, (24 th), Bachelor, Block 3 (Semester 1),
- Landscape Urbanism (5 ECTS), Master
- Urban planning project, Master in Urban Planning [organised in principle from 2021-2022]

Subject to modification of the course programme, and suitability for the profile of the recruited candidate.

**Research activities:**

The candidate is expected to develop research activities in the field of Landscape urbanism at national and international level and to have a high quality scientific production in accordance with the standards of the discipline. The candidate will also be expected to apply to external bodies in order to obtain the funding to which his status entitles him.
**Services to Community:**
The candidate will be involved in community service activities, such as: promotion to the general public and potential students of their field of research, the architecture in general and the Uliège or participation in international cooperation activities.

He will also take an active part in the life of the Faculty of Architecture and the university through participation in research, teaching or management bodies.

**Required qualifications:**

The candidate will hold a PhD degree.

- He/She will have an education and/or an experience in the field of urban planning.
- He/She must have experience in the practice of architecture, for example in spatial composition, in relation to urban planning and landscape.
- He/she will, in particular, have to show a reflexive and theoretical view of the project's design methodologies.
- He/she must be integrated into the community of faculty teaching and research practices, in order to support, through existing approaches, the development of the City - Territory - Landscape axis and the Faculty.
- He/She must demonstrate his/her ability to teach the urban planning project.

**Selection procedure:**

The candidate will be selected on the basis of his or her scientific influence as well as his or her pedagogical skills and practical experience. The selection procedure includes an interview to present the educational and research project and a short lesson. The candidate may be required to provide additional elements to his file at the request of the recruitment committee.

**Application procedure:**

Applications should be sent electronically to Postesacademiques@uliege.be with copy to Professor Pierre HALLOT – p.hallot@uliege.be by 28th February 2020 at the latest.

**Required documents:**

The following documents together with your application are required by the final date for applications:

- a motivation letter;
- a curriculum vitae with a complete list of publications (respecting the template);
- a digital copy of their 5 most significant publications;
- a description of their research project for the next 5 years (max 2 pages);
- a description of their educational project (max 2 pages);
- a reflective analysis of the project's experiences (max 2 pages);
- a table of contents listing the documents provided, including the doctoral thesis;
- a copy of the diplomas/certificates obtained.

Documents may be delivered either in French or in English and provided in electronic form (pdf).
Recruitment condition:

The positions are allocated either immediately on a permanent basis or for a fixed period of four years, which may lead to the final appointment of the person concerned.

In the case of an appointment for an initial term of four years, an assessment after three years may lead to the final appointment of the person concerned.

- If the outcome of the assessment is negative, the person concerned shall complete their four-year term with no possibility of an extension.
- If the outcome of the assessment is positive, the person concerned will be appointed on a permanent basis.

Information:

Any additional information of an administrative nature or regarding the content of the office can be obtained from Prof. Pierre Hallot - tel: +32 4 366 56 33 - p.hallot@uliege.be

Remuneration:

The salary scales and their application procedures are available from the University's human resources administration: Ms Ludivine DEPAS - tel: +32 4 366 52 04 - Ludivine.Depas@uliege.be
