Permanent (full-time) scientific vacancy in the field of “Internal Medicine of Domestic Animals”.

Start date: 01/10/2022

Vacancy reference: FMV-211215-02

Job description
A position for a first assistant in the field of Internal Medicine of Domestic Animals, attached to the Clinical Department of CI Domestic Animals.

Teaching activities
The planned teaching activities consist mainly of clinical teaching to the Master of Veterinary Medicine students through seminars, clinical rounds and patient management within the CVU. The teaching units concerned are VETE2086-A-a (domestic animal clinics, 17.5 h, 310 students) and VETE2093-A-a (80 h, 195 students).
In addition to these activities, the teaching load also includes the supervision of domestic animal clinic interns (VETE0359-7, VETE0459-1, VETE0359-8) and that of residents specialising in internal medicine.

Research Activities
The post holder will participate in the clinical research activities of the department (10%). If they so wish, the post-holder may develop their own research topic up to a maximum of 30% of their full time. The teaching load would therefore be reduced by the amount of time spent on research.

Services to the Community
Continuing education for the profession, involvement in various working groups at DCC level, involvement in faculty life (commissions, faculty council, etc.).

Qualifications required / profile
- Hold a degree in veterinary medicine recognised in the European Union and be fluent in French.
- Hold a European or American specialist diploma in internal medicine for domestic animals (ECVIM-CA or ACVIM).
- Must hold a doctorate or PhD in veterinary sciences.
- In addition to the professional scientific skills required, the candidate should be dynamic, show enthusiasm for clinical teaching, have an interest in clinical and/or basic research and possess interpersonal skills that enable them to work effectively in a team.

Selection procedure
Each candidate’s application will be examined by a faculty committee in charge of selecting the candidates to be interviewed, giving reasons for its decisions with regard to this vacancy announcement and the qualifications and merits of the candidates. It will then interview the candidates. The interview will focus on the candidate’s curriculum vitae and their prospects for development in the position to be filled.

Our institutional policy is based on diversity and equal opportunities. We select candidates on the basis of their qualities regardless of age, sexual orientation, origin, beliefs, disability or nationality.
Applications
Applicants are requested to submit their applications electronically, to the following address: PostesScientifiques@uliege.be with a copy to candidatures.fmv@uliege.be no later than 15 February 2022.

Documents required:
- An application (with a cover letter) accompanied by a complete curriculum vitae;
- A report on past and current research activities and a research plan, including the envisaged integration within the University of Liège;
- A teaching file including a report on any prior teaching activities and a teaching plan;
- A copy of publications in digital format.

Recruitment conditions
The position shall be assigned either for a fixed term of four years, which may lead to the permanent appointment of the person concerned or on a permanent basis from the outset.

Information
Any further information may be obtained from Prof. Dominique Peeters - dpeeters@uliege.be

Remuneration:
Salary scales and how they are applied are available from the human resources department of the University: Ms Ludivine Depas – tel.: +32 (0) 4 366 52 04 – Ludivine.Depas@uliege.be
