Permanent (full-time) scientific vacancy in the field of “Chemistry”.

**Start date:** 01/10/2022

**Vacancy reference:** FS-20211215-03

**Job description**

A position for a first assistant in the field of Chemistry, attached to the Department of Chemistry.

**Teaching activities**

The teaching tasks will include the supervision of practical work, tutorials and practical work related to the teaching provided by the Department of Chemistry to undergraduate and postgraduate students in Chemistry and in other fields of study of the Faculty of Science, as well as to eligible students in other faculties. These tasks represent an annual workload of approximately 150 hours.

**Research Activities**

The research activities will cover one of the following four areas, identified as priorities by the Department of Chemistry, in agreement with the CESAM and MolSys research units: (i) macromolecular chemistry, (ii) theoretical chemistry, (iii) nanochemistry and (iv) innovative characterisation methods. Candidates must demonstrate high quality scientific production in accordance with the standards of the discipline. They will also be expected to apply to external bodies in order to obtain funding appropriate to their position.

**Services to the Community**

The successful candidate will be involved in community service activities such as promoting science, courses and the University, active participation in the life of the Department of Chemistry and the Faculty of Science.

**Qualifications required / profile**

- Must hold a PhD in Science;
- Demonstrate an aptitude for teaching general chemistry at the level of the Baccalaureate cycle as part of practical work, tutorials and practical sessions;
- Demonstrate an aptitude for teaching within their specialist area at Master’s level including practical work, tutorials and practical sessions;
- Show an aptitude for coordinating the group of temporary assistants in collaboration with the teaching logistician of the Department of Chemistry;
- Provide evidence of international research experience in their specialist field;
- Speak French in order to teach students.

A long-term post-doctoral research stay abroad is a major asset.

**Selection procedure**

The selection procedure will be in accordance with the regulations applied within the University of Liège.

Our institutional policy is based on diversity and equal opportunities. We select candidates on the basis of their qualities regardless of age, sexual orientation, origin, beliefs, disability or nationality.
Applications
Applicants are requested to submit their applications electronically, to the following address: Postesscientifiques@uliege.be with a copy to Ms Françoise Motte - francoise.motte@uliege.be by 18/03/2022 the latest.

Documents required:
- Applications should be submitted (with a cover letter) accompanied by a complete curriculum vitae (see the procedures on the website of the Faculty of Sciences at: https://www.sciences.uliege.be/emploi-sciences);
- A report (five pages maximum) on past and current research activities and a research plan (five pages maximum) including the envisaged integration within the University of Liège;
- A teaching report (five pages maximum), including a report on any prior teaching activities and a teaching plan;
- A copy of any publications (electronic version).

Recruitment conditions
The position shall be assigned either for a fixed term of four years, which may lead to the permanent appointment of the person concerned or on a permanent basis from the outset.

Information
Any further information can be obtained from Ms Françoise Motte - tel: +32 (0) 4 366 36 52 – francoise.motte@uliege.be

Remuneration:
Salary scales and how they are applied are available from the human resources department of the University: Ms Ludivine Depas – tel.: +32 (0) 4 366 52 04 – Ludivine.Depas@uliege.be
