FULL-TIME ACADEMIC POST
FACULTY OF MEDICINE
FIELD: HUMAN ANATOMY
START DATE: 01/09/2024

The University of Liège is the biggest French-speaking public university in Belgium. It employs more than 5,700 staff members across four campuses, including 3,600 active teachers and researchers in all fields of the human and social sciences, science and technology, and health sciences. In hosts nearly 27,000 students of 123 different nationalities in one of the most multicultural and dynamic cities in Europe, less than an hour from Brussels and Cologne, two hours from Paris, and three hours from London and Amsterdam.

Actively involved in the social and environmental transition, ULiège supports students to fulfil their roles as responsible citizens (training in sustainable development, Green Office, etc.) and promotes ethical, multidisciplinary and open research. ULiège is committed to the region in which it operates and contributes towards local socio-economic development. It has developed numerous partnerships, notably with the university hospital. International and united, it participates in the European University of Post-Industrial Cities, UNIC initiative and has one of the most extensive collaborative networks in the world.

ULiège offers attractive career prospects in a high-quality working environment, promoting well-being, diversity and equality of opportunity. Since 2011, ULiège has been proud to display the European Human resources strategy for researchers (HRS4R) label, which reflects its commitment to open, transparent and merit-based procedures. In addition, it recognises the quality and diversity of research in line with the recommendations of the Coalition for Advancing Research Assessment (CoARA). ULiège encourages its academic staff to travel internationally and welcomes international researchers through its EURAXESS centre.

JOB DESCRIPTION

A full-time, potentially divisible post in the field of Human Anatomy within the Department of Biomedical and Preclinical Sciences. This post includes a maximum of 250 hours of teaching, including seminars and practical work, in addition to research activities in the field and services to the Community.

TEACHING ACTIVITIES

(Subject to change as part of the curriculum reform).

Bachelor’s in all fields - Faculty of Medicine

▶ Introduction to human anatomy, including an introduction to general embryology, theory part [32 hours Th], Anatomy demonstrations for doctors and dentists part [20h Pr], Anatomy demonstrations for biomedical sciences part [20h Pr].
▶ Introduction to anatomy, for the Motor Sciences and Physical Therapy and Rehabilitation fields [25h Th, 10h Pr], Pharmaceutical Sciences field [16h Th, 10h Pr].
▶ Multidisciplinary approach (pathology-physiotherapy) to the musculoskeletal system - Practical, Dissection and Functional Observation part [3h Pr].

Bachelor’s in Medicine

▶ Multidisciplinary approach to the nephro-urinary system [13h Th, 3h Pr].
▶ Practical anatomy work of the cardiovascular, respiratory and nephro-urinary systems [24h practical work]
▶ Multidisciplinary problem-based learning techniques for the cardiovascular, respiratory, nephro-urinary and haematological systems - knowledge integration [6h APP]
▶ Multidisciplinary approach to the digestive system [12h Th]
Multidisciplinary approach to the metabolic and endocrine systems, nutrition and dietetic elements [2h Th]
- Multidisciplinary approach to the genital system [12h Th]
- Anatomical work on the digestive, genital and endocrine systems [28h practical work]
- Multidisciplinary problem-based learning techniques for the digestive, genital, metabolic and endocrine systems - knowledge integration [12h APP]

Master’s in Public Health Sciences
- Basic structural and functional elements, Anatomical approaches part [3h Pr]

Master’s in Physical Sciences
- Anatomy and Human Physiology [30h Th]

Advanced Master’s
- Participation in teaching the Advanced Master’s

Continuing education and certificates
- Participation in teaching and coordinating teaching of certificates and continuing education, including open courses.

As a minimum, the supervision of dissertations in also included in the teaching activities.

RESEARCH ACTIVITIES

The applicant may propose new research directions, which will be submitted for consideration.
As a minimum, the supervision of doctoral theses will be included in the research activities.

SERVICES TO THE COMMUNITY

- Active participation in the Faculty of Medicine and in the Department of Biomedical and Preclinical Sciences;
- Participation in various committees and commissions;
- Promotion of education and the institution.

QUALIFICATIONS REQUIRED / PROFILE

- Must hold a research doctorate.

SELECTION PROCEDURE

Applications will be short-listed on the basis of a dossier.
Short-listed applicants will then be invited to an interview which will include the presentation of a public lecture.

Our institutional policy is based on diversity and equality of opportunity. We select candidates on the basis of their qualities regardless of age, sexual orientation, origin, beliefs, disability or nationality.

APPLICATIONS

Applications should be made using the online form available on the following website: https://my.uliege.be/portail/go_xt.do?a=o%7C11004%7Ce%7C568689 no later than 26/02/2024 (before midnight Belgian time). Late applications may be refused.
DOCUMENTS REQUIRED:

- Cover letter.
- Curriculum vita download model [HERE](#).
- Report on present and past research activities, as well as a research plan including envisaged integration within the University of Liège.
- Teaching dossier including a report on any prior teaching activities and a teaching plan;
- Copy of publications in digital format.

RECRUITMENT CONDITIONS

The post-holder will be appointed either for a fixed term of four years, or definitively.

- If the post is granted for a fixed term, an evaluation will take place during the third year.
- If this evaluation is negative, the appointment will end after the four-year period.
- If the assessment is positive, the person concerned shall be appointed on a permanent basis.
