RESEARCH ASSISTANT (M/F/X)
ARTIFICIAL INTELLIGENCE AND (EU) LAW – JUST-AI JEAN MONNET CENTER OF EXCELLENCE
EU LEGAL STUDIES RESEARCH CENTER (FACULTY OF LAW, POLITICAL SCIENCE AND CRIMINOLOGY – ULIÈGE)
START DATE: 01 SEPT. 2024 | DEADLINE: 31 MAY 2024

Located in the French-speaking part of Belgium, the University of Liège welcomes nearly 27,000 students of 123 different nationalities in a dynamic, multicultural city less than an hour away from Brussels and Cologne, two hours from Paris and three hours from London and Amsterdam. ULiège is spread across 4 campuses and boasts over 5,700 staff members, including 3,600 teachers and researchers active in all areas of the humanities and social sciences, science and technology, and health sciences.

As a key player in social change and environmental awareness, ULiège promotes ethical, transdisciplinary and open science. It contributes to the socio-economic development of its region through numerous partnerships with several institutions, including the university hospital (CHU). Given its international orientation, the University participates in the European University of Post-Industrial Cities (UNIC) initiative and has one of the most extensive collaborative networks in the world.

ULiège offers attractive career prospects in a high-quality working environment where well-being, diversity and equality of opportunity are promoted. Since 2011, ULiège has been proud to display the European Human resources strategy for researchers (HRS4R) label, which reflects its commitment to open, transparent and merit-based procedures. In addition, it upholds quality and diversity in line with the recommendations of the Coalition for Advancing Research Assessment (CoARA). ULiège encourages its academic staff to travel internationally and welcomes international researchers through its EURAXESS center.

ABOUT THE PROJECT

The research assistant will be included in the Justice and AI Jean Monnet Centre of Excellence: Effective Judicial Redress in the Rising European and Global AI litigation (JUST-AI JMCE). The Center strives to become a Belgian and European ‘hub of excellence’ on issues pertaining to procedural fairness in the field of AI. With the participation of a network of Belgian and international experts on AI, and in view of reaching out to expert and non-expert audiences around the world, the activities launched under the Jean Monnet Centre of Excellence label aim at promoting innovative, pluri- and interdisciplinary research, creating original and interactive educational content and raising awareness on the most salient current and future issues on procedural fairness in the era of AI. The Centre’s activities will, in particular, focus on two
research axes: AI liability and fair trial requirements (1) and regulation and procedural capabilities of litigants in AI-related disputes (2).

**JOB DESCRIPTION**

Assistance with the organization and coordination of activities developed as part of the JUST-AI Jean Monnet Center of Excellence and Support and development of research related to the Center’s topic (procedural fairness and AI).
